

Coatesville Stadium Procedure

School stadium usage is under contract, and the Saints Basketball Club has strict obligations to ensure we look after the stadium and manage the security whilst it is in our care. If we don't meet these obligations, the Club will be at risk of losing access.

The stadium should be open upon arrival and there is no need to lockup as the cleaners will do this.

Using the Stadium

- The stadium is only to be used for the allotted training time.
- No players/children are to be on school premises unless an adult is present. Parents are to remain with their children until the coach arrives.
- We have access to the court and toilets only. There is to be **no use** of the school grounds/playgrounds etc by any parents, players or siblings etc before, during, or after training.
- All siblings of players must be supervised. If siblings need to use the toilets, then a parent must go with them.
- If you feel it necessary to open the external doors on the court for ventilation, it is your responsibility to close them at the end of your training session.
- Check the stadium after use: remove any rubbish. Grab any clothing, drink bottles and balls left during training and take it with you. The school will not take any responsibility for lost property. Report any damage immediately to the Club at Secretary@saintsbasketball.org
